

Project Design Phase-II

Data Flow Diagram & User Stories

Date	02 November 2025
Team ID	NM2025TMID07694
Project Name	Educational Organisation Using ServiceNow
Maximum Marks	4 Marks

Data Flow Diagrams:

User Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
School Admin	Student Data Management	USN-1	As a school admin, I want to create student master records so that I can maintain accurate student information.	System generates unique admin numbers and validates all required fields.	High	Sprint-1
System	Data Automation	USN-2	As a system, I should auto-populate student details when an admission number is selected.	All related student fields fill automatically and become disabled for editing.	High	Sprint-2
Teacher	Academic Tracking	USN-3	As a teacher, I want to enter subject marks and have the system calculate totals and results automatically.	System calculates total, percentage, and pass/fail result instantly after mark entry.	High	Sprint-3
Admission Staff	Process Workflow	USN-4	As admission staff, I want to track application status through different stages.	System shows visual workflow from New to Joined/Rejected status.	Medium	Sprint-2
System	Address Automation	USN-5	As a system, I should auto-complete address fields when a pincode is entered.	Mandal, city, and district fields populate automatically based on pincode.	Medium	Sprint-3
System Admin	Data Integrity	USN-6	As a system admin, I want calculated fields to be protected from manual editing.	Total, percentage, and result fields are disabled and cannot be modified manually.	High	Sprint-3
